| In 1806 served in the boats of the "Excellent," at the siege of Gastia, and the capture of the Island of Capri. In 1810 was Lieutenant of the "Iphigenia," at the capture of the Isle of Bourbon. Subsequently commanded the boats of that ship at the reduction of the Isle de Passe, on which occasion he succeeded to the command of the storming party, on the death of Lieutenant Norman. Was in the action and taken prisoner in Grande Pest, in the Isle of France. In 1812 was First Lieutenant of the "Java," when that vessel was captured, after a gallant defence, by the United States frigate "Constitution," of superior force; succeeded to the command of that vessel on Captain Lambert being mortally wounded, and was himself wounded in the action. In 1815 commanded the "Columbia," at the reduction of Guadaloupe. Commanded the "Arachne" during the Burmese war, where he performed very valuable services, and was repeatedly engaged with the enemy. Commanded the "Andromache" in 1834, at the forcing of the passage of the Bogue Forts, in China. In 1836 destroyed several hordes of pirates in the Straits of Malacca. As a Rear-Admiral, was employed as third in command in the Baltic, during the operations in that sea in 1854. Held the appointment of Senior Officer at Cork, from April 1856 to December 1858. Has been actively employed afloat as a Commissioned Officer more than thirty years. | | |

Appendix, No. 13.

PROGRAMME of Shipbuilding Works to be undertaken in Her Majesty's Dockyards during the Year 1866-67.

GENERAL SUMMARY, showing the Appropriation of Shipwrights proposed for the Year 1866-67.

| | |
|---|---|
| For Ships Building, and for completing new Ships Afloat, for Sea Service - - - - - - - - - - - - | 1,764 |
| For Repairs and Refits to Sea-going and all other Ships, Casualties, Yard Craft, Harbour and Dockyard Services, &c. &c., and for Maintenance of Ships in Reserve - - - - - - - | 3,148 |
| Total Strength - - - - - | 4,912 |

*Note.*—The Abstract that follows refers only to the number of Shipwrights to be employed: the number of other Artificers being in proportion to the Shipwrights. The Scheme of Works must be considered as indicating only the probable employment of the Artificers of the Dockyards. The casual work is extremely uncertain, but provision has been made for meeting it as far as it can be foreseen. The Programme must therefore necessarily vary with the varying demands of the Service.

Controller's Office,
9 February 1866.

Sir,

I AM commanded by the Lords Commissioners of Her Majesty's Treasury to acquaint you that the sum of 196,350 *l.* 18 *s.* 8 *d.* has been surrendered as a saving in respect of unexpended balances of Votes for Naval Expenditure on 31st March 1864.

I am, &c.

SUPPLEMENTARY STATEMENT, per Treasury Letter of 29th August 1860.

The increased charge included under Vote No. 17, Army Department (for Conveyance of Troops and Stores), of the above Account, which has arisen out of the Naval Operations consequent on the Hostilities in China, is - - - - - - - £. 9,700 10 1

In previous years the Expenditure incurred on account of this Service in excess of the respective grants has been defrayed out of the Vote of Credit for the China War granted by Act 24 & 25 Vict. c. 103, s. 15, but as the unexpended balance of that Vote has been surrendered to the Exchequer by directions of the Lords of the Treasury, the above arrear Expenditure, passed to account in the year 1864-65, has been charged against the current grants of the Department, agreeably with their Letter of the 30th November 1864.

*Note.*—Affording explanations of the degree to which the Account of the Naval Receipt and Expenditure, for the Financial Year 1864-65, has been affected by the rectification of errors or omissions in the Accounts of previous years, discovered since the closing of such Accounts; inserted in pursuance of the Treasury Letter, dated the 30th April 1864.

EXPLANATIONS of the CAUSES of the EXCESSES and SURPLUSES on the preceding Account.

VOTE No. 1.

| | |
|---|---|
| WAGES to SEAMEN and MARINES (Excess) - - | £. 55,067 13 8 |

The excess upon this Vote mainly arises from more Officers and Men having been employed at higher rates of pay than was anticipated when the Estimate was framed; also, from the average number of Seamen overborne throughout the year; and by the payments for Colonial Pay and Field Allowance to Marines on Shore in Japan and New Zealand; and for Recruiting Charges having exceeded the amounts provided in the Estimates.

VOTE No. 2.

| | |
|---|---|
| VICTUALS and CLOTHING for SEAMEN and MARINES (Surplus) - | £. 129,438 3 8 |

This surplus is caused by a reduction in the contract prices of Biscuit and Flour subsequent to the framing of the Estimates for the year, by the purchase of a smaller supply of Officers' Mess Traps; by the amounts recovered for supplies of Victualling Stores to other Departments of Government, and other Branches of the Naval Service, being larger than was anticipated; also, by the sums recovered from Seamen's Wages on account of issues of Clothing to them in the course of the year being greater than the Expenditure incurred for the purchase of the same.

VOTE No. 3.

| | |
|---|---|
| ADMIRALTY OFFICE (Excess) - - - - - | £. 957 1 4 |

This excess is caused by the Law Charges consequent upon criminal prosecutions having been greater in amount that were provided for; the excess which would have been thus occasioned has however been diminished by a saving on Salaries caused chiefly by the appointment of Clerks at Minimum Salaries to fill vacancies of Clerks provided for at higher Salaries.

VOTE No. 4.

| | |
|---|---|
| COAST GUARD SERVICE, ROYAL NAVAL COAST VOLUNTEERS, and ROYAL NAVAL RESERVE (Surplus) - - - - | £. 31,029 7 11 |

This surplus arises chiefly from the number of men of the Royal Naval Reserve who have claimed retainers and presented themselves for drill having been less than was estimated for; also from the amount required for the pay of the Royal Naval Coast Volunteers in the course of the year 1864-65 having been less than that for the year 1863-64, upon which the Estimate was based; and from the amount paid to Civilians on the Coast Guard Establishment on Shore having been less than was provided for, owing to vacancies caused by retirement having been filled up by Men borne on Ships' Books.

VOTE No. 5.

| | |
|---|---|
| SCIENTIFIC BRANCH (Surplus) - - - - | £. 4,752 7 9 |

This surplus arises from three vessels employed in the Surveying Service having been paid off during the year, for which full provision had been made, the Surveys upon which they were employed having been sufficiently completed to enable their services to be dispensed with, and from the retirement of Officers in charge of Surveys.

## VOTE No. 6.

HER MAJESTY'S ESTABLISHMENTS AT HOME (Surplus) £. 1,021 – 1

This surplus is consequent upon casualties arising from deaths and removals of Officers on the Establishments of the several Dockyards.

## VOTE No. 7.

HER MAJESTY'S ESTABLISHMENTS ABROAD (Surplus) £. 601 1 7

This surplus is occasioned by casualties from deaths and removals at the several Naval and Medical Establishments, and by the contingent expenses of the Cape of Good Hope and Hong Kong Medical Establishments having been less than the amount provided for in the Estimate based upon the expenditure of preceding years.

## VOTE No. 8.

WAGES, HER MAJESTY'S ESTABLISHMENTS AT HOME (Surplus) £. 7,685 10 5

This surplus is caused by the reduction of hired men toward the end of the Financial Year, and the curtailment of the employment of men extra time in the Dockyards; and by a Saving on the provisions for extra Pay to the Artificers of the Fleet, and on that for Labourers in the Victualling-yard at Deptford.

The surplus which would have been occasioned by these causes is, however, reduced by the Amount of Wages paid to men employed in breaking up old Ships at the several Dockyards, for which no provision was made in the Navy Estimates (having been hitherto charged against the proceeds of the Ships sold), being now chargeable to this Vote, under the Treasury directions of the 28th November 1865.

## VOTE No. 9.

WAGES, HER MAJESTY'S ESTABLISHMENTS ABROAD (Excess) £. 4,408 5 1

The excess on this Vote is occasioned by the employment of a larger number of Workmen at Halifax Naval-yard, and at the Steam Factory at Hong Kong Naval-yard, than was provided for when the Estimate was framed; to meet the requirements of the Fleets on the North America and the China Stations; and by an increased amount having been paid to Artificers of the Fleet, chiefly on the North America and West Indies, and West Africa Stations, in order to meet the exigencies of the Service.

## VOTE No. 10 (Section I.)

NAVAL STORES, &c. (Excess) - - - - £. 52,459 1 2

This excess is caused by supplies of Coals for Steam Vessels at the Home Stations, and at some of the Foreign Stations, and by purchases of Coals made by Officers commanding Her Majesty's Ships and Vessels on Foreign Stations beyond the amount estimated.

## VOTE No. 10 (Section II.)

STEAM MACHINERY and SHIPS BUILT BY CONTRACT (Surplus) - £. 80,255 8 10

The surplus under this head arises from the Contractors of some of the larger Iron Ships not having advanced the Work to such a state as to entitle them to payment of some of the instalments, or such portions thereof as were provided for under the Vote, according to the terms of the Contract.

This surplus has, however, been diminished by an excess of Expenditure over the Estimate, on account of Machinery for Iron-clad Vessels.

## VOTE No. 11.

NEW WORKS, IMPROVEMENTS, &c. (Surplus) - £. 12,731 15 6

This surplus is occasioned by the Amount provided for Naval Barracks at Keyham not having been expended, owing to the work having been postponed; by the preliminary Works in connection with extending the Dockyard at Portsmouth not having been proceeded with so rapidly as was expected; and by less having been expended on Works at Coastguard Stations than was anticipated when the Estimate was framed.

## VOTE No. 12.

MEDICINES, &c. (Excess) - - - - - £. 1,828 9 5

This excess arises from an increase in the Expenditure over the Amount provided for Hospital Provisions, Medicines, and Stores, consequent upon an increased amount of Sickness.

## VOTE No. 13.

MISCELLANEOUS SERVICES (Excess) - - - £. 45,465 7 8

This excess mainly arises from the additional number of Passages granted and the high rates of Passage-money for Officers on the East India, West India, and China Stations, including the conveyance to England of the crew of Her Majesty's Ship "Bombay," destroyed by fire; also from compensation for loss of Clothing to the Crew of that Ship. From Law Charges connected with the purchase of property and gratuities for wounds and injuries, and to persons on retirement and discharge from the service not entitled to Pension, and for special Services, having executed the amount provided in the Estimate which was based upon previous years' Expenditure; from loss by Exchange, chiefly arising from the fixed value of the Mexican Dollar having been raised, and from increased Expenditure for Lodging Allowance to Officers compelled to reside on shore, over the amount provided for; from the expense of Committees on "Floating Obstructions," and Armstrong and Whitworth Guns; and from the increased Expenditure on account of Allowances to Officers superintending ships building by contract.

## VOTE No. 14.

HALF PAY, &c. (Surplus) - - - - - £. 26,961 6 5

This surplus is occasioned by a less number of Officers having been placed on Half-pay than was provided for when the Estimate was framed.

## VOTE No. 15.

MILITARY PENSIONS, &c. (Surplus) - - £. 5,337 7 4

This surplus is occasioned by the average number of Pensioners having been less than had been anticipated when the Estimate was framed, and from Pensions unclaimed.

The surplus which would have appeared on this Vote is, however, reduced by an excess over the Amount provided for Greenwich Out-Pensions, occasioned by the number of new Pensions granted being greatly in excess of those caused by Deaths and Removals.

## VOTE No. 16.

CIVIL PENSIONS, &c. (Surplus) - - - - £. 5,225 1 5

This surplus is occasioned by the average number of Pensioners having been less than had been anticipated when the Estimate was framed, and from Pensions unclaimed.

## VOTE No. 17.

ARMY DEPARTMENT (CONVEYANCE OF TROOPS), Excess, £. 102,342 6 5

The excess upon this Vote is caused by the payment of the Extraordinary Expenditure occasioned by the settlement of the Claims of the India Government for Freight, &c., consequent upon the late Hostilities in China, hitherto paid out of the Vote of Credit for that War, but now defrayed out of Naval Votes, under Treasury Letter of the 30th November 1864, by the operation of an arrangement sanctioned by Treasury Letter of the 5th June 1865, under which the Expenditure, on account of the Admiralty, claimed by other Departments of Government, has been brought to account more closely within the period to which it relates; by the removal of Troops from Canada, from China to Bombay, and to Japan, and from the West Coast of Africa to Barbadoes, none of which Services were foreseen when the Estimates were prepared; by the repayment to the Indian Government for the conveyance of a Regiment to India, whence it was forwarded to China; by the Expenditure in New Zealand connected with the hostilities there; and by Expenditure posted within the Year on account of Indian Relief Service being in excess of the Credit falling due from the Indian Government.

The gross excess upon this Vote has been reduced by the receipt of the balance due by the French Government, on account of the expenses of the Russian Prisoners of War.

The Treasury sanction was obtained by letter of 31st March 1865, for 61,501 *l.* of this Excess.

BALANCES IRRECOVERABLE - - - - - £. 3,876-10 4

For Public Money accidentally lost overboard by the Clerk of Her Majesty's Ship "Coquette," and by the upsetting of the pinnace of Her Majesty's Ship "Ariel;" for Public Money stolen from the Coast Guard Watch-room at Wicklow; for Balance of a Debt due to the Crown by a late Dispensary Assistant at the Royal Naval Hospital at Plymouth, found to be irrecoverable; and for Balances due on the Cash Accounts of the Officers acting as Paymasters of Her Majesty's Ships "Cockchafer," "Starling," "Firebrand," "Ringdove," found to be irrecoverable. In the case of the last-named ship a considerable portion of the deficiency on the accounts doubtless arose from the absence of Vouchers to support payments made by the Paymaster.

*N.B.*—The temporary application of the sum of 266,404 *l.* 15 *s.* 1 *d.* out of the Surpluses under Votes Nos. 2, 4, 5, 6, 7, 8, 10 (Section II.), 11, 14, 15, and 16, to cover the deficiencies on the Grants for the Services above-mentioned, has been sanctioned by Treasury Letter of 26th January 1866, with reference to the Provisions of the 27th Clause of Act 27 & 28 Vict. c. 73.

## MEMORANDUM.

THE Old Store and Extra Receipt Moneys for the Year 1864–65, amounting to 186,338 *l.* 15 *s.* (as brought to account under the following detailed Heads), have been paid over to the Exchequer, in conformity with the Treasury Minute of 2 May 1848, instead of being appropriated, as heretofore, on the Navy Estimates.

## REPORT of the COMMISSIONERS OF AUDIT on the foregoing ACCOUNT.

(No. 30.)

Audit Office, Somerset House, London, W. C.,
31 January 1866.

My Lords,

WE have the honour to transmit the accompanying copy of the Account of the Receipt and Expenditure for Naval Services for the year ended 31st March 1865, forwarded to us by the Lords Commissioners of the Admiralty, in pursuance of the 2d section of the Act 9 & 10 Vict. c. 92, and examined by officers under our directions.

The total sum appropriated by the Act 27 & 28 Vict. c. 73, for Naval Services in the year 1864-65, was 10,708,651 *l.*, and the Total Expenditure in that year is shown by the accompanying Account to have been 10,670,017*l.* 4*s.* 2*d.*

It will be perceived from this Account that the Expenditure under the following heads has exceeded the amount voted by the sum of 266,404*l.* 15*s.* 1*d.*; viz.:—

| Vote. | £. s. d. |
|---|---|
| 1. Wages to Seamen and Marines | 55,067 13 8 |
| 3. Admiralty Office | 957 1 4 |
| 9. Wages Abroad | 4,408 5 1 |
| 10. (1st Section) Naval Stores | 52,459 1 2 |
| 12. Medicines | 1,828 9 5 |
| 13. Miscellaneous Services | 45,465 7 8 |
| 17. Army Department (Conveyance of Troops) | 102,342 6 5 |
| Balances Irrecoverable | 3,876 10 4 |
| £. | 266,404 15 1 |

And there is a surplus of 305,038*l.* 10*s.* 11*d.* under other heads; viz.:—

| Vote. | £. s. d. |
|---|---|
| 2. Victuals | 129,438 3 8 |
| 4. Coast Guard, &c. | 31,029 7 11 |
| 5. Scientific Branch | 4,752 7 9 |
| 6. Establishments at Home | 1,021 – 1 |
| 7. Establishments Abroad | 601 1 7 |
| 8. Wages at Home | 7,685 10 5 |
| 10. (2d Section) Steam Machinery and Ships Built by Contract | 80,255 8 10 |
| 11. New Works and Repairs | 12,731 15 6 |
| 14. Half Pay | 26,961 6 5 |
| 15. Military Pensions | 5,337 7 4 |
| 16. Civil Pensions | 5,225 1 5 |
| £. | 305,038 10 11 |

The deficiency of 266,404*l.* 15*s.* 1*d.* has been temporarily defrayed, under your Lordships' authority, out of the surplus of 305,038*l.* 10*s.* 11*d.*, in accordance with the terms of the Act 27 & 28 Vict. c. 73, s. 27, and will, we apprehend, have to be provided for by Parliament.

A statement

A statement of the foregoing differences between the estimated Amounts and the actual Expenditure will be found subjoined.

We have ascertained that the amount of old store and extra receipt moneys, as shown in the Memorandum attached to the Account, has been paid into the Exchequer, as follows:—

| | £. | s. | d. |
|---|---|---|---|
| September 1864 | 27,904 | 6 | 9 |
| December „ | 82,620 | 7 | 5 |
| March 1865 | 40,619 | 12 | 5 |
| May „ | 35,194 | 8 | 5 |
| £. | 186,338 | 15 | – |

The practice adopted by the Navy of affixing a money value to certain serviceable stores, returned into store, and debiting the Vote for stores with the same as a repurchase, crediting at the same time the Exchequer with the amount as an extra receipt, which practice was adverted to in our previous Reports on the Navy Account, has been, by your Lordships' directions, discontinued in the present Account.

In accordance with your Lordships' directions, a note has been appended to the Account, showing under each Vote the degree to which the Account of the Financial year has been affected by the rectification of errors or omissions in the Accounts of previous years.

Your Lordships having approved of the course proposed in our Report of the 24th February 1865, viz., that in the case of payments made by one department for another, the date of record should be governed by the date when the payment was actually made, not by the date when the repayment to the department performing the service took place; we called the attention of the Admiralty to certain cases in which the rule laid down had not been followed, and reported to your Lordships the correspondence which passed. We now beg leave to annex a copy of the letters referred to, as we see no reason why the rule approved by your Lordships should not be carried out in all cases. 3.

The usual detailed vouchers have not been produced to us in the following case, viz., in support of the Account of Mr. Chown, late Acting Paymaster of the gun-boat "Snap." Mr. Chown was dismissed the service, and charges against the Votes of 1,348*l.* 15*s.* 5*d.* have been made, not upon actual proof of payment, but upon evidence in the Navy Office, which, under the circumstances of the case, appears to us to be admissible.

Certain questions which have arisen with reference to non-effective services remain for adjustment on the audit of the Cash Account of the Paymaster General to which they relate.

In transmitting the accompanying Account, we beg to enclose copies of letters which have passed between this Board and the Admiralty respecting the amount of expenditure relating to the year 1864–65, which has been omitted from the Account, either in consequence of Accounts not having been received in office or of their not having been examined and allowed when the books were closed. 2.

We have, &c.

Sir, Audit Office, 31 October 1865.

THE attention of the Commissioners for Auditing the Public Accounts having been called to the several entries in the Admiralty Books, debiting the Non-Effective Navy Votes, 1865–66, with the amounts included in the statements furnished to the Admiralty by the Paymaster-General from April to September 1865, in respect of those services, I am directed to state that it appears to the Commissioners that these amounts must necessarily include payments made by Commissariat officers and others in the year 1864–65, and I am therefore to request, with reference to the instructions contained in the Treasury Letter to the Admiralty of the 5th June last, the nature of which was communicated to their Board by their Lordships' letter of the 7th of the same month, that the Commissioners may be informed what steps are intended to be taken with a view of raising the proper charge against the Votes for 1864–65.

I have, &c.

Gentlemen, Admiralty, 28 November 1865.

HAVING laid before my Lords Commissioners of the Admiralty your letter of the 31st ultimo, stating that your attention has been called to the several entries in the Admiralty books debiting the Non-Effective Navy Votes, 1865–66, with the amounts included in the statements furnished to the Admiralty by the Paymaster-General from April to September 1865, in respect to those services, and requesting to be informed what steps are intended to be taken with a view of making a proper charge against the Votes for 1864–65 on account of payments included in the above statements which were made by Commissariat officers and others in that year, with reference to the instructions contained in the Treasury Letter to the Admiralty of the 5th June last, I am commanded by their Lordships to acquaint you that the Lords of the Treasury, in the letter alluded to, directed that "Imprest Accounts" were to be opened with all Public Departments, and my Lords ordered the same to take effect from the 1st April 1865.

The effect of this arrangement was to extend the period for bringing to account expenditure incurred at stations abroad, so as to charge the same, as far as practicable, to the Account of the financial year to which it related, and in which provision was made for it.

This principle, as applied to the heavy and varying expenditure by the War and India Departments for Naval Services, is of considerable importance, in order to obtain a closer approximation between Estimate and Expenditure for each year, by allowing 18 months for the same, to be brought to account with reference to the long period before which claims for this class of payments could be preferred and ultimately examined and brought to account in the Admiralty Ledger.

The expenditure by the Paymaster-General on account of Navy Non-Effective Services is included by him in a Monthly Current Cash Account, and is posted regularly in the Admiralty books of record; and as the payments made by Commissariat officers and others for those services, which are introduced into that Monthly Account are comparatively of small amount and undergo very little variation, the annual expenditure is practically uniform, and the payments over a series of years represent a correct average in respect to which provision is made in the annual Navy Estimates on account of the same.

For these reasons, and as no advantage would be gained commensurate with the additional labour which would be entailed, my Lords have not considered it necessary to take any steps with the view of raising a charge against the Votes for 1864–65 for Non-Effective Services in respect to the payments referred to in your letter.

I am, &c.

The Commissioners of Audit. (signed) *W. G. Romaine.*

---

My Lords, Audit Office, 2 December 1865.

WE have the honour to transmit to your Lordships a copy of a correspondence which has passed between this Board and the Admiralty, respecting the mode of recording certain payments made by Treasury Chest officers and others on account of Navy Non-Effective Services. Your Lordships have already signified your approval of the course proposed in our Report of the 24th February last, No. 84, viz., that in the case of payments made by one Department for another the date of record should be governed by the date when the payment was actually made, not by the date when the repayment to the Department performing the service took place. Although the Admiralty admit this principle, and have applied it to a large amount of expenditure, they decline, for the reasons stated in their letter, to apply it to Non-Effective Services. With reference, however, to the interpretation put upon the terms of the Appropriation Act in the above-mentioned correspondence with your Lordships, it does not appear to us that we can accept as sufficient the reason stated by the Admiralty for continuing the present practice, viz., "that the payments over a series of years represent a correct average in respect of which provision is made in the annual Navy Estimates."

We may also observe that we see no reason for adopting different courses in respect of payments made by Treasury Chest officers on account of Effective Service and Non-Effective Service; the first being, according to the present practice of the Admiralty, recorded under the date of actual payment, and the second under the date of repayment to the Department performing the service.

We would at the same time remark, that the practice objected to is also followed with regard to the date of recording certain payments which are made on account of the Admiralty by the Customs and Inland Revenue Departments.

We have, &c.

The Lords Commissioners of Her Majesty's Treasury, &c. &c. &c. (signed) *W. L. Maberly.* *C. Macaulay.*

Sir, Audit Office, 5 December 1865.

I AM directed by the Commissioners for Auditing the Public Accounts, with reference to the Account of Naval Receipt and Expenditure for the year 1864–65, transmitted in your letter of the 30th ultimo, to request that this Board may be furnished with a statement of the number and amount of the Accounts relating to the year 1864–65 received in office which have not been examined and included in the Account rendered for that year; also a statement of the Accounts which had not been received in office when the account for the year 1864–65 was closed.

Gentlemen, Admiralty, 6 January 1866.

I AM commanded by my Lords Commissioners of the Admiralty to acknowledge the receipt of your letter of the 5th ultimo, and I am to acquaint you in reply that all the Cash Accounts (4,566 in number) of Naval Accountants for the year 1864–65 received in office have been examined, and the expenditure, amounting to 5,527,087 *l.* 14 *s.* 4 *d.*, included in the Parliamentary Naval Account for that year.

The following is a statement of the only Accounts which had not been received in office when the Account for the year was closed; viz.—

| From Her Majesty's Ship | Period. | Amount. | | |
|---|---|---|---|---|
| | | £. | *s.* | *d.* |
| Buzzard - - - - - | 1 December 1864 to 31 March 1865 - | 2,005 | – | – |
| Investigator - - - - | 1 November 1864 to 31 March 1865 - | 1,864 | 19 | – |
| Stromboli - - - - - | 1 to 31 March 1865 - - - | 114 | 8 | 11 |
| South Australian Survey - | Lady Quarter, 1865 - - - | 491 | 9 | 5 |
| | £. | 4,475 | 17 | 4 |

My Lords desire me to inform you that the Account for the South Australian Survey was received on the 12th ultimo, and that every endeavour has been made to obtain the Accounts above referred to in time to be included in the Account of the year to which they relate, but without effect.

I am, &c.

## CAUSES OF VARIATION.

Excess: arising mainly from a greater Number of Officers and Men having been Employed at higher rates of Pay than was anticipated when the Estimate was framed; also from the Average Number of Seamen overborne throughout the Year.

Surplus: arising from the Expenditure not having been so great as anticipated when the Estimate was framed.

Surplus: caused by the Number of Marines serving on Shore having been below the Establishment provided for.

Surplus: this is occasioned to some extent from the Payments to Marines, when on board Ship, having been included in the Ships' Books, under the Head of Sea Wages; which Payments, in future, will be charged to this Head.

Excess: arising from it having been found necessary to Recruit for the Marine Service to a greater extent than was contemplated when the Estimate was framed.

Excess: arising from increased Expenditure for Field and Contingent Allowances for Service on Shore in New Zealand and Japan; and for Lodging Allowances to Non-commissioned Officers and Men, Royal Marines.

CAUSES OF VARIATION.

Surplus: caused by it not having been found necessary to purchase so largely as had been anticipated, owing to the men having saved much more than the usual proportion of their Rations, and by the prices paid for Biscuit, Flour, &c. having been less than the rates at which they were Estimated.

Excess: occasioned by the men having saved much more than the usual proportion of their Rations.

Excess: caused by greater numbers having been granted Compensation in lieu of Provisions than were Estimated for.

Excess: caused by the price of Coals having been higher than that provided for, and by the increased Expenditure for Lights on Board Iron-clad Ships.

Surplus: occasioned by issues in kind having been supplied to a greater extent than was antipated when the Estimate was framed; and by increased number of Officers paid Money Allowances in lieu of Provisions, which is inclusive of Lights.

Surplus: caused by fewer Ships having been Commissioned than the usual Average, and the anticipated increase of Officers drawing these Allowances not having, therefore, occurred to the extent provided for.

Surplus: caused by it not having been found necessary to purchase Mess Traps, &c., to the extent provided for, owing to a smaller number of Vessels having been Commissioned than was anticipated.

Surplus: caused by a larger Amount having been recovered for supplies to other Departments and Services than was anticipated when the Estimate was framed.

Surplus: caused by the Cost of keeping up the Supplies for Foreign Depôts not having been so great as was provided for; and by the employment of the "Buffalo" Yard Craft, having rendered the engagement of Home Freight, in many cases, unnecessary.

CAUSES OF VARIATION.

Surplus: arising from new appointment of Clerks at lower Salaries, in Vacancies caused by Retirement on Pension, &c.

Excess: owing to re-arrangement of duties among the Messengers, consequent on the Death of the Housekeeper at the Admiralty, Whitehall, by which an allowance for Servants, formerly charged to Salaries, now falls on this head.

Excess: this is merely the difference between an estimated and an actual Expenditure.

Excess: occasioned by heavy Law Charges consequent upon Criminal Prosecutions.

Surplus: caused by new appointment of Clerks at lower Salaries, in Vacancies caused by Death and Removals.

Excess: this is merely the difference between an actual and estimated Expenditure.

Excess: arising from the Expenditure for Contingent Charges having been greater than the average of the three preceding years, on which the Estimate was based.

Surplus: occasioned by the amount paid to Civilians having been less than was provided for, owing to Vacancies caused by their Retirement having been filled up by Men borne on Ships' Books.

Surplus: occasioned by diminished Payments for Rents and Lodging Allowances consequent on the occupation of Public Buildings, and by the increased employment in the place of Civilians of Men borne on Ships' Books, to whom a lower rate of Lodging Money is payable.

Excess: arising from the expenditure on account of Travelling Charges and Allowances to Officers on visiting duty having been this Year in excess of the average Expenditure of the three preceding Years on which the Estimate was based.

Excess: occasioned by the Expenditure for Drilling the Men of the Royal Naval Reserve having been greater than the amount provided in the Estimate, which was based on the Expenditure for 1862–63.

Surplus: caused by the reduction of the Force in the course of the Year.

Surplus: occasioned by a less number of Men having presented themselves for Drill, and claimed Retainers, than were provided for.

* Copy of Application made to Treasury,

Sir, Admiralty, 17 March 1865.

MY Lords Commissioners of the Admiralty having received a memorandum from the Science and Art Department, by which it appears that the total expenditure on account of the School of Naval Architecture, up to the 31st instant, will create an Excess over the Vote of about Seven hundred pounds, as shown below, I am commanded by their Lordships to request that the Lords Commissioners of Her Majesty's Treasury will give their sanction to this increased expense.

£. 700.

My Lords direct me, at the same time, to observe that it is not contemplated that there will be any Surplus this year on Vote No. 5 (Scientific Branch) to meet this expense, but that it may be met out of the expected Surplus on the aggregate Votes for this year.

I am, &c.

The Secretary of the Treasury. (signed) *C. Paget.*

CAUSES OF VARIATION.

Excess: the Expenditure for repairs of Buildings having been greater than was anticipated when the Estimate was framed.

Surplus: caused by fewer Astronomical Observations having been printed than was provided for.

Surplus: occasioned by the employment of fewer Computors than were provided for.

Excess: the number of Chronometers requiring to be repaired having been greater than that for which provision was made.

Excess: caused by the Expenditure for Travelling and Lodging Money of the Superintendent having exceeded the amount provided for that Service.

Surplus: arising from diminished Claims under this head.

Excess: caused by the appointment of the Director of Education having taken place after the Estimates were framed.

Excess: caused by the Expenditure for the Maintenance of this Establishment having been greater than that estimated for; as, being the first year of the formation of the Establishment, sufficient data did not exist for framing a complete Estimate for such Charges. This Excess was sanctioned by Treasury Letter of 22d March 1865.

Surplus: this is merely the difference between an estimated and an actual Expenditure.

Surplus: occasioned by only one Officer having been employed in preparing Sailing Directions during the year instead of three, as provided for.

Excess: arising from increased demands for Charts from Foreign Governments, and by the Public, the proceeds of the Sales being paid into the Exchequer.

Surplus: caused by it not having been found necessary to purchase Instruments, &c. to the extent contemplated when the Estimate was framed.

Surplus: arising from three Vessels employed in the Surveying Service having been paid off during the year, for which full provision had been made; the Surveys upon which they were employed having been sufficiently completed to admit of their services being dispensed with, and from the retirement of Officers in charge of Surveys.

Surplus: this is merely the difference between an estimated and actual Expenditure.

and Treasury reply appended.

My Lord, Treasury Chambers, 22 March 1865.

The Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 17th instant, stating that the total expenditure on account of the School of Naval Architecture, up to the 31st instant, will create an Excess over the Vote of about 700 *l.*, and I am directed by their Lordships to signify to you their approval of the proposal of the Lords Commissioners of the Admiralty to meet this Excess, temporarily, out of the expected Surplus on the aggregate Navy Votes of the year, subject to future adjustment of the charge.

I am, &c.

The Secretary of the Admiralty. (signed) *F. Peel.*

CAUSES OF VARIATION.

Surplus: consequent upon casualties arising from Deaths and Removals, the reduction of an Assistant Master Shipwright at Sheerness, and the employment of fewer Temporary Clerks than were provided for.

Excess: arising from Allowances for Lodging paid to Officers of the Dockyards whilst their official residences were under repair, being beyond the average amount paid; and from the amount paid for Water having been in Excess of the Sum provided in the Estimates.

Surplus: arising from a diminution of Expenditure for Travelling Expenses, and other Contingent Charges, as based on the Expenditure for previous Years.

Excess: this is merely the difference between an estimated and actual Expenditure.

Surplus: this is merely the difference between an estimated and actual Expenditure.

Surplus: arising from a diminution of Expenditure for Postage, Travelling Expenses, and other Contingencies, the Estimate having been based on the Expenditure of previous years.

Surplus: arising from a temporary Clerk having been provided for at Plymouth, but not employed.

Surplus: arising from the payments for Rates and Taxes having fallen short of the Estimate based on the Expenditure of previous Years.

Excess: chiefly occasioned by the payment of an Allowance to the Vicar of Yarmouth, for attendance at Yarmouth Hospital, granted subsequently to the Estimates being framed.

Surplus: this is merely the difference between estimated and actual Expenditure.

Surplus: arising from diminished Expenditure charged to this Vote on account of Travelling Charges.

Excess: arising principally from the New Barracks at Eastney and Plymouth not being sufficiently advanced to afford the necessary accommodation for Marine Officers, and the consequent payment of Lodging Allowances to them.

Excess: this is merely the difference between an estimated and actual Expenditure.

Surplus: arising principally from fewer Warders having been required than were provided for.

CAUSES OF VARIATION.

Surplus: arising from the Assistant Civil Engineer, provided for at Malta, having been transferred to Pembroke, his services not being required at the former place.

Surplus: occasioned principally by the Allowances for House Rent at Hong Kong not having been required to the extent provided for; and by the Contingent Expenses for Travelling, Postage, &c., at the Cape of Good Hope having been less than the Estimate, which was based on previous years' Expenditure.

Excess: caused by it having been found necessary that a temporary Clerk at Malta, engaged for a short time, should be retained during the whole of the year.

Excess: caused by an Allowance for House Rent to the Clerk of the Works at Malta, granted after the Estimates were framed; and by the Amount paid at the Cape of Good Hope for Advertisements having exceeded the Estimate based on previous years' Expenditure.

Surplus: arising from a Clerk at Hong Kong having been invalided, and his successor appointed at a lower rate of Salary.

Surplus: arising from the Contingent Expenses for Travelling, Postage, &c., at the Cape of Good Hope and Hong Kong having fallen short of the Estimate based upon previous years' Expenditure.

Excess: caused by the Wages paid to Men employed in breaking up old Ships at the several Dockyards, for which no provision was made in the Estimates (having been hitherto charged against the Proceeds of the Ships sold), becoming chargeable to this Vote, under the Treasury Directions of the 28th November 1865, thereby absorbing the Surplus which would otherwise have appeared on this item, owing to the reduction of hired Men towards the end of the Financial Year, and the curtailment of the employment of Men extra time.

Surplus: occasioned by a smaller amount for extra Pay having been expended to meet the requirements of the Service than was provided for.

Excess: this being the first instance of taking a Survey Valuation of the Stock of Stores and Timber in the seven Naval Dockyards at Home, and the Service being of an unusual and extensive character, the estimated value of the Stock being upwards of 5,000,000 *l.*, it was not practicable to estimate accurately the cost.

Sir, Admiralty, 30 September 1865.

THE Lords of the Treasury having by their letter of the 22d October 1864, approved of the same course being pursued in the year 1863-64 as in 1862-63, with respect to charging the Navy Vote No. 10, with the value of Materials, &c. returned into store from Ships broken up in the several Dockyards, stating, however, that their Lordships reserved their final instructions as to the principle to be permanently adopted in the preparation of the Accounts of the two Services until the War Office Committee should have investigated the details of the subject, and advised their Lordships thereon; and the subject having been subsequently brought under the consideration of the late Finance Committee without any decision having been arrived at;

I am commanded by the Lords Commissioners of the Admiralty to acquaint you, for the information of the Lords Commissioners of the Treasury, that the value of Materials, &c. returned into store from Ships broken up in the several Dockyards in the year ended
£. 90,258 15 5 31st March 1865, amounted to the sum of Ninety thousand two hundred and fifty-eight pounds fifteen shillings and five-pence, and that the amount paid in the same year on account of the value of old Copper, &c., repurchased from the buyers of old Ships sold out
£. 25,872 17 5 of the Service, was Twenty-five thousand eight hundred and seventy-two pounds seventeen shillings and five-pence, making together the sum of One hundred and sixteen thousand
£. 116,131 12 10 one hundred and thirty-one pounds twelve shillings and ten-pence; and I am commanded to request that you will move their Lordships to signify their concurrence in the amount being charged to Vote 10 for the year 1864-65, and in the Exchequer Old Store and Extra Receipt Moneys Account (Proceeds of the Sale of Old Ships) being credited therewith.

£. 116,131 12 10 I am to observe that of the foregoing amount of One hundred and sixteen thousand one hundred and thirty-one pounds twelve shillings and ten-pence, the sum of Seventy thousand one hundred and seventy-seven pounds fifteen shillings and four-pence, which will be
£. 70,177 15 4 chargeable to Vote No. 10, sec. 1, may, if so charged, cause an excess of expenditure of about that amount over the sum provided in the Navy Estimates for 1864-65, under Vote No. 10, sec. 1; and I am to request that you will move their Lordships to signify their concurrence in the same being defrayed out of the Surplus on the aggregate Navy Votes for the year, which, so far as an opinion can at present be formed of the Expenditure yet to be posted, will, it is considered, be sufficient to cover this Excess; the Balance remaining, viz.,

the Subdivisions of the Votes included in the foregoing Statement, &c.—*continued.*

CAUSES OF VARIATION.

Surplus: this is merely the difference between an estimated and an actual Expenditure.

Excess: this is merely the difference between an estimated and an actual Expenditure.

Surplus: arising from it not having been found necessary to employ additional Labourers, or to extend the hours of labour beyond the usual time; to meet which contingency, provision had been made in the Estimates for 1864–65.

Excess: arising from the addition of the "Buffalo" Steam Vessel to the Establishment, by which a saving under the head of Freight on Vote 2 has been effected.

Surplus: arising from fewer Nurses having been required at Plymouth and Haulbowline Hospitals than were provided for, and from the Attendants at Yarmouth Lunatic Asylum having been allowed Rations in kind instead of a Money Allowance chargeable to this Vote.

Surplus: arising from the Service throughout the year not requiring extra Labourers and Boatmen as provided for.

Surplus: arising from fewer Nurses having been required at Woolwich and Chatham Marine Infirmaries than were provided for.

Surplus: arising from the greater portion of the Clothing for the Police for the year 1864-65 not having been paid for and claimed by the Commissioners of the Metropolitan Police until the year following.

viz., Forty-five thousand nine hundred and fifty-three pounds seventeen shillings and sixpence, will be chargeable to Vote No. 10, sec. 2, on which there is an anticipated Surplus sufficient to cover this Expenditure. £. 45,953 17 6

I am, &c.

The Secretary of the Treasury, (signed) *W. G. Romaine.*

---

Sir, Treasury Chambers, 28 November 1865.

The Lords Commissioners of the Treasury have had again under their consideration the question submitted for their decision in your letter of the 30th September last, as to the mode of providing for and bringing to account the value of old Materials returned into store from old Ships broken up, which Materials are again rendered serviceable in the building and repair of Ships; and they have also made inquiry into the practice of the War Department in dealing with the value of similar old Materials in their Annual Estimates, and in their Annual Accounts submitted to Parliament; and upon a full reconsideration of the question, they are of opinion that it is desirable to assimilate the practice of the two Departments.

They have therefore to request that no provision for the value of such returns into store may be made in the Navy Estimates, which should show the gross amounts of raw material required to be purchased, and the deductions on account of old Materials returned from Ships broken up, the Votes being calculated on the net amount.

I am further to request, as the Account for 1864-65 is not yet closed, and as provision for the repurchase of these old Materials was not made in the Estimates for that year, that the Accountant General of the Navy may be instructed to act on the principle now laid down in that Account, and that the authority conveyed to the Lords Commissioners of the Admiralty in the letter from this Board of the 7th instant may be considered to be cancelled.

I am, &c.

The Secretary of the Admiralty. (signed) *Hugh C. E. Childers.*

| Excess: occasioned by the employment of a larger number of Workmen at Halifax Naval Yard, and at the Steam Factory at Hong Kong Naval Yard, than was provided for when the Estimate was framed, to meet the requirements of the Fleets on the North American and the China Stations. |
| Excess: arising from an increased amount having been paid to Artificers of the Fleet, chiefly on the North America, and West India, and West Africa Stations, in order to meet the exigencies of the Service. |
| Surplus: occasioned by fewer Workmen having been required at Malta and Hong Kong than was anticipated when the Estimates were framed. |
| Surplus: occasioned by fewer Nurses having been required at Malta and Hong Kong than were provided for. |
| Surplus: arising from the non-delivery within the year of supplies of Mexican Mahogany Timber, due under Contract. |
| Surplus: caused by the requirements of the Service for supplies of British Iron having been less than provided for, the Estimate being based on the previous year's Expenditure. |
| Excess: caused by variation in prices of Armour Plates since the Estimate was framed. An excess of 12,000 *l.* was sanctioned by Treasury Letter of 2d January 1865 on this Item. |
| Surplus: caused by the failure of Contractors to deliver so many Beams as had been anticipated. |
| Excess: caused by the failure of some of the Contractors to complete their engagements within the previous financial year, rendering it necessary to pay some of the balances during the present year. |
| Excess: caused by the purchase of larger supplies of Coal Sacks, Seamen's Bags and Fearnought, than estimated, and by the advance in prices of Canvas, Colours, &c. |
| Surplus: caused by the amount of credits for Stores supplied to other Departments having considerably exceeded the Estimate. |
| Excess: caused by increased supplies of Coals for Steam Vessels at the Home Stations, and at some of the Foreign Stations, and by purchases made by Officers commanding Her Majesty's Ships and Vessels on Foreign Stations, beyond the amount estimated. |
| Excess: arising from the expenditure for Copper, Canvas, and other Stores supplied for fitting Coast Guard Tenders having been posted to this Item in the year 1864-65, instead of to the General Store Head, and from unusually heavy payments for Furniture, &c. supplied to Coast Guard Stations, a very large number of Cottages having been completed and fitted during the year. |
| Surplus: arising from the reduced requirements of the Service. |

Sir, Admiralty, 23 December 1864.

MY Lords Commissioners of the Admiralty considering it very desirable that the "Royal Alfred," now building at Portsmouth, should be completed as a central battery ship in lieu of carrying out the original design, which alteration would involve the necessity of procuring about 300 tons of 6-inch armour plates, at an expense of about
£. 12,000 Twelve thousand pounds, proposed to be defrayed from the surplus on Section 2, Vote 10, Ships building by Contract, I am to request you will move the Lords Commissioners of the Treasury to give their sanction to this arrangement.

I am, &c.

The Secretary of the Treasury. (signed) *W. G. Romaine.*

| Excess: arising from the Expenditure for the Steam Machinery of Her Majesty's Ships "Agincourt," "Minotaur," "Bellerophon," and "Pallas," having exceeded the Amount provided for that Service, owing to the Contractors having completed a greater portion of work than was anticipated. |
| Surplus: owing to the Contractors of some of the large Iron Ships not having advanced the work to such a state as to entitle them to Payment of some of the Instalments, or such portions thereof as were provided under the Vote, according to the terms of the Contract. |
| Surplus: caused by the actual Expenditure having been less than the Estimate taken for this Service. |
| Surplus: arising from the Cost of Experimental Operations not having been so numerous as estimated for. |
| Surplus: caused by the Vessels purchased having cost less than the Amount estimated. |
| Excess: caused by the Cost of Conversion of Brigs and Mortar Vessels into Watch Vessels, having exceeded the Amont anticipated. |
| Excess: arising from the extensive Repairs and Fitment of the "Malacca" and "Cruiser," by Contract. |

Sir, Treasury Chambers, 2 January 1865.

With reference to your letter of the 23d instant, recommending that the expense of about 12,000*l.*, which will be entailed by completing the "Royal Alfred" as a central battery ship, should be defrayed from the surplus on Section 2, Vote 10, Ships building by Contract, I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you, for the information of the Lords Commissioners of the Admiralty, that my Lords approve of this arrangement; but I am to request that they may be informed of the anticipated effect which it will have on the two sections of Vote 10, that is, the anticipated excess which will have to be provided for on the whole of the first section, and the total estimated surplus on the second section.

I am, &c.

The Secretary of the Admiralty. (signed) *F. Peel.*

| Excess: incurred on the following Items: | | |
| Extension and Improvement of the Yard by Convict Labour | 14,233 – – | In consequence of the Works having been proceeded with with greater expedition than contemplated when the Estimates were framed. |
| Additional accommodation for Smithery | 166 – – | Owing to additional Work for improving the Ventilation of the Building, and fixing the Machinery. |
| Clearing Harbour of Mud | 2,211 – – | Caused by the purchase of Six new Barges, and the consequent increase of Work done in keeping the Dredger fully employed. |
| Foundations for 25-Ton Crane between 3 and 4 Docks | 80 – – | Additional Work for the security of the Crane, not originally provided for. |
| Gas | 174 – – | By increasing the number of Lights in use during the Year, and Lighting some of the Workshops after the customary working hours. |
| Alterations and Re-constructions | 158 – – | Chiefly on unforeseen Works executed during the year, authorised to be met out of Surplus on Contingencies. |
| * Ordinary Repairs | 3,901 – – | Of this amount, a sum of 2,905 *l.* was approved by Treasury Letter, 5th July 1864, being the value of the old Pig-iron Ballast laid down as an Extension of the existing Tramways of the Dockyard. The remainder is due to the great Expense incurred for wear and tear of the Angle Iron and Armour Plate Furnaces; also for enlarging the Machine Shed at Slip No. 7, for the additional Machinery, and for Gas Fitings, executed during the Year, not provided for. |

Admiralty, 13th June 1864.

Sir,

I am commanded by my Lords Commissioners of the Admiralty to acquaint you, that in consequence of an accident to the sheers in Woolwich Yard which occurred in January last, it has become necessary to erect new sheers.

The sum required for the foundations of machinery for the same will amount to 587 *l.*, and as no provision has been made for this service in the Navy Estimates, my Lords request the concurrence of the Lords Commissioners of Her Majesty's Treasury to this expenditure being charged to the Vote for "Contingencies."

I am, Sir,

The Secretary to the Treasury.

The sanction of the Treasury to Expenditure amounting to 855 *l.* 7 *s.* 7 *d.* under this item, was given by letters dated 23 June and 11 July 1864, and 26 January and 9 February 1865.

and Treasury Replies, appended. (*See* page 43.)

My Lord, Treasury Chambers, 25 June 1864.

The Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 13th instant, and their Lordships have directed me to acquaint you, for the information of the Lords Commissioners of the Admiralty, that my Lords approve of the sum of 587 *l.*, required for the foundations of the machinery for the new sheers at Woolwich Dockyard being charged to the Vote for "Contingencies" in this year's Estimates.

Admiralty, 19 May 1864.

Sir,

IN the Estimates for the present year a sum of 223 *l.* is provided for a store for metal castings, Chatham Yard; my Lords Commissioners of the Admiralty have had a representation made of the necessity of providing an iron store, and they desire to receive the concurrence of the Lords Commissioners of Her Majesty's Treasury to the appropriation of the above-named sum from its original purpose to enable them to provide an iron store to prevent the deterioration of the quantity of iron necessarily in store for the iron ships building.

Sir,

I AM commanded by my Lords Commissioners of the Admiralty to acquaint you, for the information of the Lords Commissioners of the Treasury, that it has been proposed, in order to improve the roadways in Chatham Yard, to appropriate about 830 tons of iron ballast now in store to the formation of tramways, in extension of work of a similar character already done.

With this view, I am to request the concurrence of the Lords of Her Majesty's Treasury, to the value of the iron ballast, viz., 2,905 *l.*, being charged to Vote 11, "New Works," and credited to Vote 10, section 1.

Treasury Chambers, 5th July 1864.

My Lord,

WITH reference to your letter of the 23d ultimo, recommending that about 830 tons of iron ballast now in store, should be appropriated to the formation of tramways in Chatham Yard, I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you, for the information of the Lords Commissioners of the Admiralty, that my Lords approve of the proposal, and of the value of the iron ballast, viz., 2,905 *l.*, being charged to Vote 11, "New Works," and credited to Vote 10, section 1.

Admiralty, 28 June 1864.

Sir,

I AM commanded by my Lords Commissioners of the Admiralty to acquaint you, for the information of the Lords Commissioners of Her Majesty's Treasury, that considerable advantage will be gained to the public service by deepening the invert of No. 7, Dock Portsmouth Yard, and my Lords, therefore, request the concurrence of the Lords of the Treasury to the same being undertaken at an expense of 2,000 *l.*, which my Lords propose should be charged to the Vote for "Contingencies."

Their Lordships desire me to add that it is of great importance the work should be undertaken this year, and at the present season.

Treasury Chambers, 16 July 1864.

My Lord,

THE Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 28th ultimo, proposing to expend a sum of 2,000 *l.* in deepening the invert of No. 7 Dock, Portsmouth Yard, and their Lordships have directed me to acquaint you, for the information of the Lords Commissioners of the Admiralty, that my Lords will not object to this expense being incurred, if provision can be made for it by postponing other charges on Vote 11, but they do not think that it can properly be charged to the Vote for "Contingencies."

Sir, Admiralty, 29 July 1864.

In reply to your letter of the 16th instant, having reference to the proposed expenditure of 2,000 *l.* in deepening the invert of No. 7 Dock, Portsmouth Yard, I am commanded by my Lords Commissioners of the Admiralty to acquaint you that it is not intended for the present to expend the sum on the Estimates for Naval Barracks at Portsmouth; and my Lords, with the concurrence of the Lords Commissioners of Her Majesty's Treasury, would suggest that the expenditure at No. 7 Dock might be charged against this saving.

I am, &c.

The Secretary to the Treasury. (signed) *W. G. Romaine.*

Sir, Treasury Chambers, 6 August 1864.

I am commanded by the Lords Commissioners of Her Majesty's Treasury to acquaint you, for the information of the Lords Commissioners of the Admiralty, that their Lordships are pleased to approve of the sum of 2,000 *l.*, which it was proposed in Lord Clarence Paget's letter of 28th June to expend in deepening the invert of No. 7 Dock, Portsmouth Dockyard, and to charge against the Vote for Contingencies, being charged against the saving on the Estimates for the Naval Barracks at Portsmouth, as suggested in your letter of the 29th ultimo (E.).

I am, &c.

The Secretary of the Admiralty. (signed) *F. Peel.*

Sir, Admiralty, 26 July 1864.

I am commanded by my Lords Commissioners of the Admiralty to acquaint you that a necessity has presented itself for the erection of iron urinals on the New Ground, Portsmouth Yard, but that no provision has been made for the same in this year's Estimates. The cost will be about 115 *l.*, and my Lords propose that this sum should be taken from a sum of 500 *l.* voted for "Accommodation of Ship's Crews in Docks, Nos. 7, 8, & 10," deferring the privies for No. 7 Dock until after certain alterations contemplated shall have been completed.

My Lords request the concurrence of the Lords of Her Majesty's Treasury to this expenditure out of the 500 *l.* accordingly.

The Secretary to the Treasury. (signed) *W. G. Romaine.*

Sir, Treasury Chambers, 4 August 1864.

The Lords Commissioners of Her Majesty's Treasury have directed me to acquaint you, for the information of the Lords Commissioners of the Admiralty, that they approve of the expenditure of the sum of 115 *l.* in the erection of urinals on the New Ground, Portsmouth Yard, being defrayed out of the item of 500 *l.* voted for "Accommodation of Ship's Crews in Docks, Nos. 7, 8, & 10, Vote 11," as proposed in your letter of the 26th ultimo.

I am, &c.

The Secretary of the Admiralty. (signed) *G. A. Hamilton.*

Sir, Admiralty, 28 November 1864.

I am commanded by my Lords Commissioners of the Admiralty to acquaint you that they have appropriated the sum of 6,000 *l.* of the item of 30,000 *l.* voted in the Estimates for 1864-65, for the "Extension of the North Basin," Keyham Yard, for an erecting shop, and as the construction of the building is a new service, and will entail a practical increase on the original Estimate, my Lords think it desirable to draw the attention of the Lords Commissioners of Her Majesty's Treasury to this proposed appropriation, with a view to the increase of the approximate Estimate for next year of the cost for completing the works at Keyham as a whole.

I am, &c.

The Secretary of the Treasury. (signed) *C. Paget.*

My Lord, Treasury Chambers, 5 December 1864.

With reference to your letter of the 28th ultimo, stating that a sum of 6,000 *l.* has been appropriated out of the item of 30,000 *l.* voted in the Estimates for 1864-65, for the "Extension of the North Basin," Keyham Yard, for an erecting shop, I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you, for the information of the Lords Commissioners of the Admiralty, that my Lords see no objection to the increase of the cost of completing the works at Keyham as a whole entailed by the construction of this building.

I am, &c.

The Secretary to the Admiralty. (signed) *F. Peel.*

EXPLANATORY STATEMENT of Sums Expended, "More or Less" than those Estimated, under

Sir, Admiralty, 5 January 1865.

I AM commanded by my Lords Commissioners of the Admiralty to acquaint you, for the information of the Lords Commissioners of Her Majesty's Treasury, that a new steam hammer has been procured and delivered at Pembroke, but that no provision has been made in the Estimates for the current year for the foundations of steam hammer, the erection of furnaces, and alterations in the steam hammer shop, contingent works most urgently required. As there is, however, a large surplus (estimated at 1,250 *l.*) on the item of Annual Estimates, 1864–65, in Vote No. 11, for services at Pembroke, my Lords propose to appropriate the sum of Seven hundred and fifty pounds (750 *l.*) from the surplus in question towards the completion of the works for the steam hammer, and they desire to receive the concurrence of the Lords of the Treasury to such appropriation.

I am, &c.

The Secretary of the Treasury. (signed) *W. G. Romaine.*

---

Sir, Treasury Chambers, 16 January 1865.

THE Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 5th instant, proposing to appropriate 750 *l.* out of the savings on the items in this year's Estimates on Vote No. 11, at Pembroke, to meet the expense of providing the necessary works for setting up a new steam hammer at Pembroke, for which service no provision has been made.

In reply, I am directed by their Lordships to convey to you, for the information of the Lords of the Admiralty, the approval by the Board of the course proposed,

I am, &c.

The Secretary of the Admiralty. (signed) *F. Peel.*

---

Sir, Admiralty, 17 January 1865.

I AM commanded by my Lords Commissioners of the Admiralty to acquaint you, that it has been considered necessary to dispatch a very large quantity of coals from England to Shanghai, amounting to 6,000 tons, for the use of the East India and China squadron.

The present coal store at that place being in too dilapidated a condition to receive the coals, it will be necessary to take immediate steps for its repair, in order to provide storage and security for the same.

My Lords have received an estimate for the execution of the work, in a very effective manner, amounting to the sum of 526 *l.* 13 *s.* 4 *d.*; and, as the work is urgent, they request that the Lords Commissioners of Her Majesty's Treasury will authorise the amount to be charged to the aggregate Vote, the expense being met out of the Vote for Contingencies, on which there is at present a considerable surplus.

I am, &c.

The Secretary of the Treasury. (signed) *W. G. Romaine.*

---

Sir, Treasury Chambers, 26 January 1865.

THE Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 17th instant, recommending an outlay of 526 *l.* 13 *s.* 4 *d.* in the repair of the coal store at Shanghai, and their Lordships have directed me to acquaint you, for the information of the Lords Commissioners of the Admiralty, that they approve of this amount being charged to the aggregate Vote, the expense being met out of the Vote for Contingencies.

I am, &c.

The Secretary to the Admiralty. (signed) *F. Peel.*

---

Sir, Admiralty, 1 July 1864.

IN reply to your letter of the 23d ultimo, 9174, relative to an expenditure of 200 *l.*, in providing additional barracks for Royal Marines at Bermuda, I am commanded by my Lords Commissioners of the Admiralty to acquaint you that the cost will be defrayed from the general Vote for Bermuda, as far as possible, and if that will not bear it, from the Vote for Contingencies.

I am, &c.

The Secretary of the Treasury. (signed) *C. Paget.*

My Lord, Treasury Chambers, 11 July 1864.

WITH reference to your letter of the 1st instant, relative to the expenditure of 200 *l.* in providing additional barracks for Royal Marines at Bermuda, I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you, for the information of the Lords Commissioners of the Admiralty, that my Lords approve of this expenditure being defrayed from the general Vote for Bermuda, as far as possible, and if that Vote will not bear it, from the Vote for Contingencies.

I am, &c.

The Secretary to the Admiralty. (signed) *F. Peel.*

---

Sir, Admiralty, 16 June 1864.

I AM commanded by my Lords Commissioners of the Admiralty to acquaint you that the large number of marines now stationed on shore at Bermuda has made it necessary to provide suitable barrack accommodation.

The War Department having consented to transfer for this purpose certain premises known as the Commissioner's House at Ireland Island, my Lords are desirous of immediately rendering the building fit for the occupation of the marines, by executing such repairs and painting as may be necessary to preserve it from the weather, by separating the quarters of the officers from those of the men, and by making some improvements in the ventilation of the building.

No provision having been made in the Navy Estimates for this service, for which an outlay of about 200 *l.* will be required, my Lords desire the concurrence of the Lords of Her Majesty's Treasury to this expense being incurred.

I am, &c.

The Secretary of the Treasury. (signed) *C. Paget.*

---

My Lord, Treasury Chambers, 23 June 1864.

WITH reference to your letter of the 16th instant, recommending an expenditure of 200 *l.* in providing barracks at Bermuda for the marines stationed on shore, I am directed by the Lords Commissioners of Her Majesty's Treasury to acquaint you, for the information of the Lords Commissioners of the Admiralty, that, under the circumstances stated, my Lords are not disposed to withhold their consent to this arrangement; but they would be glad to know out of what funds it is proposed to provide for the expenditure.

I am, &c.

The Secretary to the Admiralty. (signed) *F. Peel.*

---

Sir, Admiralty, 18 January 1865.

EXPENSES amounting to the sum of one hundred and twenty-eight pounds fourteen shillings and threepence, having been incurred for the construction of certain works in connection with the training establishment for boys at Jersey, for which no preparation was made in the Estimates, my Lords Commissioners of the Admiralty request the concurrence of the Lords Commissioners of Her Majesty's Treasury to the same being charged as an excess on Vote 11 (Contingencies, Works and Repairs). £. 128. 14. 3.

I am, &c.

The Secretary of the Treasury. (signed) *C. Paget.*

---

My Lord, Treasury Chambers, 9 February 1865.

WITH reference to your letter of the 18th ultimo, relative to an expense, amounting to 128 *l.* 14 *s.* 3 *d.*, which has been incurred in the construction of certain works in connection with the training establishment for boys at Jersey, I am directed by the Lords Commissioners of Her Majesty's Treasury to signify to you their Lordships' approval of the proposal of the Lords Commissioners of the Admiralty to charge this sum as an excess on Vote 11 (Contingencies, Works and Repairs).

I am, &c.

The Secretary of the Admiralty. (signed) *F. Peel.*

| Excess: arising from an increase in the number of Hospital rations issued consequent on an increase in the actual amount of sickness, involving a larger expenditure for provisions, coals, and miscellaneous stores of all kinds than was anticipated; and from provisions having been issued to the attendants at Yarmouth Hospital during the greater part of the year, instead of a money allowance being paid in lieu thereof; chargeable as Wages, under Vote 8. |
| Excess: this arises from the increase in the amount of sickness, and also from purchases for ships on Foreign Stations, where there was no available Depôt. |
| Excess: arising principally from the expenses for the treatment of the sick on the China Station. |
| Surplus: arising from the actual Expenditure having fallen short of the Estimate, which was based on the average payments of previous years. |
| Surpluses: arising from the actual Expenditure having been less than the Estimate, which was based upon the average payments of the three preceding years. |
| Excess: this is merely the difference between an Estimated and an actual Expenditure. |
| Excess: arising from the claims, at high rates of charge, for Passages of Officers, &c., to and from the China, East India and West India Stations (including the conveyance to England of the crew of Her Majesty's Ship "Bombay," destroyed by fire), having been more numerous than were provided for in the Estimate, based upon the average expenditure of the three preceding years. |

CAUSES OF VARIATION.

Excess: arising from the actual Expenditure having exceeded the amount provided for this casual Service.

Excess: arising from the Law Charges connected with the purchase of property, chiefly arising from the extension of Keyham Dock, and the erection of Coast Guard Stations, having exceeded the amount provided for this Service.

Excess: caused by more having been paid for Stamps and for Public Advertisements than was provided for, based upon the average of the three preceding years.

Excess: caused by the employment of the barque "Golden Eagle" to convey the framework for Barracks for Marines, and Stores for the formation of the Settlement at Somerset, from Brisbane to Port Albany.

Surpluses: arising from the actual Expenditure having fallen short of the Estimates, which were based on the average payments of previous years.

Excess: arising from the Expend iture for gratuities for wounds and injuries, and to persons on Retirement and Discharge from the Service not entitled to Pensions, and for special Services having been greater than was pr ovided for in the Estimate, which was based on the average payments of previous years.

Excess: caused by the Expenditure having exceeded the amount provided in the Estimate, which was based upon the average payments of the three preceding years; chiefly arising from the expense of Committees on "Floating Obstructions" and on "Armstrong and Whitworth Guns."

Surplus: arising from the actual Expenditure having fallen short of the Estimate, which was based on the average payments of previous years.

Excess: larger Expenditure incurred to meet the requirements of the Service than was provided for in the Estimate, which was based upon previous years' expenditure.

Excess: caused by the Net Loss by Exchange having exceeded the Estimate, based on the results of previous years, arising chiefly from the fixed value of the Mexican Dollar having been raised.

Excess: arising from increased Expenditure for lodging allowance to Officers, &c. compelled to reside on shore; from an allowance to the Captain and Ward Room Mess of Her Majesty's Ship "Racoon" for the entertainment of His Royal Highness Prince Alfred; and from the amount provided for Miscellaneous Expenses, based on the expenditure of the three previous years, having proved insufficient.

Surplus: occasioned by a less number of Officers having been placed on Half Pay than was provided for when the Estimate was framed.

CAUSES OF VARIATION.

Excess: caused by the extraordinary Expenditure occasioned by the settlement of the claims of the Indian Government for freight consequent upon the late hostilities in China, for which no provision was made, the excess of Expenditure caused by payments for this Service having hitherto been paid out of the Vote of Credit for that war, but now defrayed out of Naval Votes, under Treasury Letter of the 30th November 1864.

Excess: caused by removal of troops from Canada to Great Britain, from China to Bombay, and from the West Coast of Africa to Barbados, which services were not foreseen when the Estimate was prepared; also by the Repayment to the Indian Government for the conveyance of a Regiment to India, whence it was forwarded to China, and by the operation of an arrangement sanctioned by Treasury Lettter of the 5th June 1865, under which the Expenditure on account of the Admiralty, claimed by other Departments of Government, has been brought to account more closely within the period to which it relates.

Excess: caused by the payment of outstanding claims for Supplies to Transports employed in North America, and by the extraordinary Expenditure occasioned by the settlement of the claims of the Indian Government, consequent upon the late hostilities in China, as explained under the first item of this Vote.

Excess: caused by the Expenditure on account of the Admiralty, claimed by other Departments of Government, having been brought to account more closely within the period to which it relates, and by the Expenditure occasioned by the late hostilities in China, as previously explained.

Excesses: occasioned by the conveyance of troops and stores coastwise in New Zealand, and of troops between China and Japan, beyond what was foreseen when the Estimate was framed; and by the Expenditure on account of the Admiralty, claimed by other Departments of Government, having been brought to account more closely within the period to which it relates.

Excess: caused by the Expenses incurred in connection with the Indian Reliefs being greater than the repayment by the Indian Government credited to the General Vote; by Expenditure occasioned by the late hostilities in China; and by the Expenditure on account of the Admiralty, claimed by other Departments of Government, having been brought to account more closely within the period to which it relates.

Surplus: arising from several large anticipated services not having been performed.

Excess: principally occasioned by the Expense of the passage of witnesses at the Court-Martial of Lieutenant Colonel Crawley, and by the Expenditure on account of the Admiralty, claimed by other Departments of Government, having been brought to account more closely within the period to which it relates.

Excess: caused by the Expense of fitting ships for conveyance of troops to New Zealand for Indian Relief Service, the repayment being credited to the General Vote; by the Expenditure occasioned by the late hostilities in China; and for the settlement of War Office claims under the arrangement sanctioned by Treasury Letter of 5th June 1865, as previously explained.

Excess: caused by repayment to the Indian Government for bedding and Stores supplied to troops proceeding from India to New Zealand, and from India to China, and by the Expense of replacement of bedding, &c. issued for Indian Relief Service, the repayment being credited to the General Vote; also by the Expenses incurred at various stations abroad having been greater than was anticipated; and by the settlement of War Office claims under the arrangement sanctioned by Treasury Letter of 5th June 1865, as previously explained.

CAUSES OF VARIATION.

Surplus: arising from a War Office claim on account of "prior years," provided for in the Estimate not having been finally adjusted, and brought to account within the year as anticipated. The Surplus has been reduced by Expenditure occasioned by the late Hostilities in China, as previously explained.

Excess: caused by the Pay and Allowances of the Transport Officer on board the "Wanbojeeg," in New Zealand, not provided for.

Excess: caused by Expenditure for Provisions for the Indian Relief Service, the repayment by the Indian Government being credited to the General Vote; for Supplies for Troops proceeding to New Zealand, not provided for; also by Expenditure occasioned by the late Hostilities in China, as previously explained.

Credit: occasioned by the receipt of the Balance due by the French Government on account of their proportion of expenses for Russian Prisoners of War.

Credit: arising from the Amount repaid by the Indian Government on account of the Conveyance of the 10th Regiment to India, the Expenditure for which Service is included in the several detailed Items of the Vote.

Excess: arising from Public Money accidentally lost overboard by the Clerk of H.M.S. "Coquette," and by the upsetting of the pinnace of H.M.S. "Ariel"; from Public Money stolen from the Coast Guard Watch-room at Wicklow; from the Balance of a Debt due to the Crown by a late Dispensary Assistant at the Royal Naval Hospital at Plymouth, found to be irrecoverable; and from Balances due on the Cash Accounts of the Officers acting as Paymasters of Her Majesty's Ships "Cockchafer," "Starling," "Firebrand," and "Ringdove," found to be irrecoverable. In the case of the last-named ship a considerable portion of the Deficiency on the Accounts doubtless arose from the absence of vouchers to support payments made by the Paymaster.

EXPLANATORY STATEMENT of the Sums Expended, "More or Less," than those Estimated, under

Sir, Admiralty, 9 January 1865.

WITH reference to the second paragraph of your letter of the 30th November last, in which it is stated that the balance of 37,623 *l.* 18 *s.* 10 *d.*, remaining in the Books of the Naval Department from the Vote of Credit for Extraordinary Naval Charges on account of the late China War, should be forthwith paid into the Exchequer, I am commanded by my Lords Commissioners of the Admiralty to request that you will state to the Lords Commissioners of Her Majesty's Treasury, that payments to the extent of 1,043 *l.* 6 *s.* 10 *d.* have already been admitted in the year 1864-65, as a charge to be met by that balance, and that further claims, so chargeable, are in office to the amount of about 43,000 *l.* If the payments on account of the same be charged to Vote 17, Army Department (Conveyance of Troops) for 1864-65, they would be in excess on that Vote, as the Director of Transports anticipates an excess may arise upon the ordinary payments under the Vote, and the Accountant General is unable at the present time to state that the charges in question may not even cause an excess upon the aggregate of the Naval Votes.

My Lords request under these circumstances that the Lords of the Treasury will not require the balance to be paid into the Exchequer.

I am, &c.

The Secretary of the Treasury. (signed) *C. Paget.*

---

My Lord, Treasury Chambers, 28 January 1865.

THE Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 9th instant, requesting that their Lordships will not require the balance of 37,623 *l.* 18 *s.* 10 *d.*, remaining in the Books of the Naval Department from the Vote of Credit for Extraordinary Naval Charges on account of the late China War, to be paid into the Exchequer; and their Lordships have directed me to acquaint you, for the information of the Lords Commissioners of the Admiralty, that the War Office Account has borne the arrear charges on account of the last China War, which have come in course of charge since the 1st April 1862; and no issue has been made from the Vote of Credit in the Exchequer subsequent to that date.

My Lords are therefore of opinion that they are not authorised to retain the balance referred to in your letter of the 9th instant, and your previous letter of the 23d November last, which should be forthwith paid into the Exchequer, as directed in the letter from this Department of 30th November last, and they must request that the arrear charges on account of this war may be debited against the ordinary Navy Votes, and that any deficiency which may arise on the Votes may be submitted for the decision of Parliament.

I am, &c.

The Secretary to the Admiralty. (signed) *F. Peel.*

---

Sir, Treasury Chambers, 31 March 1865.

THE Lords Commissioners of Her Majesty's Treasury have had before them your letter of the 23d instant, enclosing the copy of a report from the Director of Transport Services as to the anticipated excess of 61,501 *l.* on Vote 17 of the present year; and I am directed by their Lordships to acquaint you, for the information of the Lords Commissioners of the Admiralty, that they approve of the excess of expenditure on Vote 17 being defrayed out of Naval Funds, as a charge to be temporarily borne on the savings on other Votes.

I am, &c.

The Secretary to the Admiralty. (signed) *F. Peel.*

---

Sir, Admiralty, 23 March 1865.

Director of Transports. 18 March 1865.

I AM commanded by my Lords Commissioners of the Admiralty to transmit to you the accompanying copy of a report from the Director of Transport Services as to the anticipated excess of 61,501 *l.* on Vote 17 of the present year, and my Lords request the concurrence of the Lords Commissioners of Her Majesty's Treasury to the arrangement proposed as to defraying the excess from the surplus of the aggregate Naval Votes.

I am, &c.

The Secretary of the Treasury. (signed) *W. G. Romaine.*

---

Director of Transport Services, Admiralty, 18 March 1865.

Sir,

I BEG to report to their Lordships that an expenditure has been incurred in excess of the Vote No. 17 for 1864-65, amounting, so far as at present has been ascertained, to 21,578 *l.*, the details of which are shown in the accompanying statement.

2. In

each of the Subdivisions of the Votes included in the foregoing Statement, &c.—*continued.*

2. In addition to the above, the claims paid or to be admitted before the 31st instant on account of the late China War, amount to 7,523 *l.*, which sum, it would appear, will become chargeable to the Vote under the Treasury Letter of the 30th November last, directing the surrender of the balance of the Vote of Credit.

3. I beg further to report that I anticipate an additional and unavoidable charge upon the Vote for the year of about 4,800 *l.*, for the conveyance of two regiments of Native Infantry from China to India, for whose removal instructions have been issued by the Secretary of State for War, and 13,600 *l.* for local engagements in New Zealand, being the excess over the Estimate for such services, which I anticipate will be found when the accounts for the year are received and examined.

4. I beg to call their Lordships' attention to a claim preferred by the Indian Government, for the repayment of the cost of the conveyance of the 2d Battalion of the 20th Regiment to India, the regiment having been diverted to China at the request of the Secretary of State for War, and the 55th Regiment sent to India to replace it, at the cost of the Indian Government.

5. The amount of this claim chargeable to Naval Funds is about 14,000 *l.*, but the claim is not supported by vouchers, the Indian Government requesting that the amount may be transferred, subject to future adjustment.

6. As this expense is one which appears fairly chargeable to the Imperial Government, and as no provision has been made to meet it in the Estimates for the forthcoming year, which were prepared before the claim was received, I would submit whether this sum should not also be paid in the present year, the Accountant General of the Navy having stated that he considers a sufficient balance may be expected upon the aggregate Votes to cover this payment, as well as the anticipated excess before reported, amounting in the aggregate to 61,501 *l.*, should the whole be considered chargeable.

I am, &c.
(signed) *M. R. Mends*,
Director of Transports.

The Secretary of the Admiralty.

BALANCE SHEET, showing the LEDGER BALANCES on the 30th September 1865, the Date on which the Annual Account of NAVAL RECEIPT and EXPENDITURE was closed;—also, the Proportion of the AVAILABLE BALANCE remaining on that Day applicable to the still open Account of 1865–66; leaving the Unappropriated Balance of £. 38,633. 15. 10. on the Grants for 1864–65, as stated in the Account.

*N.B.*—To obviate the necessity of introducing into the following Statement the separate results of all the Accounts, the Balances in the Ledger are shown in *Classes*, except in those instances in which it has been deemed advisable to add special explanations, with the view of illustrating the principle upon which the Account has been prepared, and the final Balance struck. The Account of Receipt and Expenditure is one of Receipts and Payments within the Year, and has been kept open for Six Months after the expiration of the Year to which it refers, under the authority of Parliament, that all Payments posted within that period, relating to the service of the past Year, might be included in it, and the whole Expenditure on Imprest be finally audited before declaring the Balance. The postings of the Receipts and Payments comprised in that Account being therefore spread over a period of Eighteen Months, the proof of the correctness of the Expenditure, as compared with the Grants of 1864–65, may be shown either by the Balances which remained in the Books at the Date to which the Account of Receipt and Expenditure extends (viz. 31st March 1865), or by those which remained at the Date when it was definitively closed (viz. 30th September 1865). The Balance Sheet of the latter Date is given, as it exhibits a more complete statement of the Accounts.

# REPORT of the Accountant General of the Navy.

(No. 301.)

Admiralty, Somerset House, W.C.
16th February, 1866. A.G.

I beg to forward herewith the Accounts showing the Cost of Conversions of Timber in Her Majesty's Dockyards, and of Articles Manufactured in the respective Dockyard and Steam Factory Workshops, together with the Cost thereof in Excess of or Less than Rate Book Prices, for the Year 1864-65, in order that the same may be laid before Parliament in accordance with the course pursued in respect to similar Accounts for previous Years.

These Accounts have been prepared at the several Yards with the same fulness of detail as similar Accounts in preceding years, for the purpose of comparing the Cost of the same descriptions of Conversions of Timber and of Articles Manufactured at the different Yards, and for the annual revision of the Rate Book Prices for such Articles, but they have subsequently been condensed and arranged in the present revised Forms, as approved by their Lordships' Order of the 20th October last, and mainly for the following reasons:—

1st. When these Balance Sheets were first laid before Parliament, they contained the same detailed descriptions of the several operations as were given in the Returns rendered from the Yards; the result was that from the very minuteness of the classification, the public could not readily institute any general comparison as to the relative cost of similar Conversions at the different Yards.

2nd. An attempt was then made to facilitate this comparison, at the same time avoiding complexity of detail by classifying certain descriptions of like articles under general heads, in conformity with the Rate Book Classification; but this arrangement, from the necessarily grouping together of articles of varying rates, led to erroneous conclusions as to the relative cost of apparently similar operations at the different Yards.

3rd. By the present generalisation of the Dockyard Conversions under fewer heads, omitting the minute record of the Rate of the Produce as compared with the Rate Book, and showing under each description the Excess or Diminution of the Cost of Produce as compared with the Rate Book, it is considered that the general economy, or otherwise, of the Dockyard Manufactures, as compared with the Private Trade, as well as the relative Cost at the different Yards of similar operations, can be more readily made. This general classification will establish a similarity of principle between the Parliamentary Naval Cash and Expense Accounts, by giving general results only.

The Rate Books for Timber and Stores have been revised upon the Cost of the operations contained in the Balance Sheets for 1864-65, and upon the present Contracts and Market Prices for the Raw Materials. The result of the annual revision of the Rate Book, which is now made, will be, as these Accounts show, compared with those for the preceding years, to lessen year by year the discrepancies between the Cost of Produce and the Rate Book Value, and also to establish a more satisfactory basis for the valuation of Timber and Stores for

general issues and for stock-taking. In illustration of this remark, I beg to draw their Lordships' attention to the following fact, that while the Conversions of Timber and Manufacturing Operations for the Year 1863-64 amounted to *1,465,873 l. 14 s. 8 d.*, there was an Excess Cost over the Rate Book of *92,374 l. 17 s. 0 d.*, whereas by the present Balance Sheets it will be seen that while the same operations amount to *1,754,393 l. 18 s. 8 d.*, the Excess Cost of Produce is only *48,405 l. 13 s. 11 d.*, or $6\frac{3}{4}$ per Cent. in 1863-64 as compared with $2\frac{3}{4}$ per Cent. in 1864-65.

Accountant General.

## REPORT of the Accountant General of the Navy.

(No. 300.)

Admiralty, 16 February 1866.

I beg to forward herewith Accounts showing the value of the stock of Timber and Stores in Her Majesty's Dockyards at Home on the 31st March 1864, of the Receipts and Issues during the Year and of the remains on the 25th March 1865; also of Dockyard Expenditure and Production for Ships, Services and Conversions and of Expenses incurred on Her Majesty's Ships Building, Converting, Fitting, Repairing, &c. in Her Majesty's Dockyards and by Contract for the Year 1864-65, in order that the same may be laid before Parliament.

As the first two Accounts have not hitherto been prepared, and as the latter Account has been rendered in a different form, and embraces additional charges beyond those included in similar Accounts for previous years, I beg to submit the following explanatory observations in respect thereof.

1st. Dockyard Stock Valuation Account.

By the arrangement which has been adopted under their Lordships' sanction, the remains of the Stock of Timber and Stores in the several Dockyards at Home, when unaccompanied with an Actual Survey, have been valued as they appear on the face of the Ledger, upon the basis of the Rate Book prices, in those cases where the Stores and Timber Materials are entered separately in the Ledgers in accordance with the Rate Book classification; but where the articles are grouped together in the Ledgers, the quantity and value of each description have been determined by personal inspection. In the case of Actual Surveys which took place at Chatham, Woolwich, and Sheerness, the remains were taken and valued concurrently. The Receipts from Contractors have been valued at the rates of the several Contracts; those from all other sources at the Rate Book prices.

The Issues have been uniformly credited at the Rate Book prices.

2nd. Dockyard Expenditure and Production Account for Ships, Services, and Conversions.

The object of this Account is to exhibit, in a mercantile form, so far as the differences of circumstances will admit, the entire operations of Receipt and Expenditure in Her Majesty's Dockyards and through other sources, on account of works connected with Ships, Services, and Conversions for the year 1864-65; and at the same time to show upon the face of this Account, the Value of the remains of the Stock in Her Majesty's Dockyards at Home, at the commencement and at the conclusion of the Year, so as to afford the public a complete view of the nature and extent of the transactions.

3rd. Account of Expenses incurred on Her Majesty's Ships, Building, Converting, Fitting, Repairing, &c.

In this Account, as revised, the primary principles which it has been considered desirable to adopt may be generalized as follows:

To exhibit the Nature and Cost of the collective operations at each and at the whole of the several Dockyards, upon the Works and Services undertaken, as well as the total charge for each Ship and Service; also the direct charge for the labour and materials, which each Yard and Factory has contributed on account of the Works upon each Ship and Service; observing that the total of the indirect charges shown at each and at the whole of the several Dockyards are appropriated *pro ratâ* with the other incidental charges over the works upon Ships.

In like manner a similar detailed Account has been prepared, showing the charges against Ships for payments made and allowed in Cash Accounts at the Admiralty, other than those included in the Dockyard Accounts.

The general results afforded by these detailed Accounts, and additional particulars, will not only enable the public to ascertain the cost of the works of each ship, and the charges incurred at each yard, but also to judge of the comparative economy observed upon similar operations at the several Dockyards as well as in the private trade, so far as the same may be practicable.

In previous accounts the proportion of incidental expenses charged *pro ratâ* has been restricted to such dockyard incidental charges as were not susceptible of direct appropriation to each ship, together with the charge for Police. In the present account, however, with the view of exhibiting the first cost of Dockyard operations upon a basis similar, with certain unavoidable exceptional circumstances, to that which is adopted in private ship-building establishments, the whole of the indirect charges which are considered to be contingent upon the operations conducted at the several Dockyards upon Ships and Manufactures have been included, and consist of the following items :

1. Dockyard incidental charges (hitherto shown).

2. Cost of supervising power of the Establishments at Home and Abroad.

3. Rents, Rates, Taxes and Contingent Charges of the above Establishments.

4. Cost of Surveys and Valuations.

5. Wages of Yard Craftmen, Wages of Police (hitherto shown), and charges for the Conveyance of Stores.

6. Repairs and Replacement of Yard Plant, for the purpose of keeping it in working order.

7. Enhanced or depreciated Value of the Stock in hand.

In addition to the foregoing Incidental and Establishment Charges, the charge of 3 per cent. upon the aggregate amount of the Manufacturing operations in the several Dockyards at Home for the year, has been added to the cost of building, fitting and repairing Ships, as the *final productions of the Yard*, in the nature of a rent to cover interest on Capital and depreciation of Plant in the Establishments where the Works are carried on. This rate of percentage is in accordance with the recommendation of the Committee on Dockyard Manufactures, based upon the evidence of Mr. Scott Russell, and of Mr. Alexander Murray, Chief Engineer of Portsmouth Factory, given before the Select Committee on Navy, Army, and Ordnance Estimates (Parliamentary Paper, No. 555, Session 1848), and as approved of by their Lordships.

The adoption, in full, of the foregoing indirect charges, has resulted in a charge of about 35 per cent. being added to the gross direct charges for labour and materials expended upon each ship.

J. BEEBY,
Accountant General.
